

SAN JOSE POLICE DEPARTMENT

TRAINING BULLETIN

TO: ALL DEPARTMENT PERSONNEL

FROM: Anthony Mata Chief of Police

SUBJECT: FIREARM LAW CHANGES

DATE: August 23, 2022

Bulletin #2022-025

On June 30, 2022, the California Legislature enacted several new firearm regulations including Assembly Bill 1621 - Unserialized Firearms.¹ AB 1621 changes the definition of a firearm pursuant to Penal Code section 16520 – Firearm (definition) to include "firearm precursor parts"—mirroring the language of the ATF's federal rule change which takes effect August 24, 2022.² Please refer to Attachment 1 (below) provided by the Santa Clara County District Attorney's Office regarding AB 1621.

AB 1621 - Unserialized Firearms

Effective immediately, the definition of a firearm pursuant to PC 16520 has been changed to include firearm precursor parts, meaning the new definition includes unfinished frames and receivers. This pertains to most of the regulations used by law enforcement, to include possession by prohibited persons (e.g., felons, restrained persons, etc.). Effective June 30, 2022, when a prohibited person is found to be in possession of a firearm precursor part, a violation of PC 29800 (Felon in Possession of a Firearm) has occurred.

AB 1621 repealed several Penal Code sections which were created by AB 879 - Firearms (October 2019) to regulate firearm precursor part possession, as duplicative. Those sections are no longer needed because the definition change rolls these violations into existing law. The repealed Penal Code sections are 30405, 30406, 30412, and 30414.

PC 16520 – Firearm (definition)

(a) As used in this part, "firearm" means a device, designed to be used as a weapon, from which is expelled through a barrel, a projectile by the force of an explosion or other form of combustion.

(b) As used in the following provisions, "firearm" includes the frame or receiver of the weapon, including both a completed frame or receiver, or a firearm precursor part

¹ <u>https://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill_id=202120220AB1621</u>

² <u>https://www.atf.gov/rules-and-regulations/definition-frame-or-receiver</u>

PC 16531 – Firearm Precursor Part (definition)

(a) "Firearm precursor part" means any forging, casting, printing, extrusion, machined body or similar article that has reached a stage in manufacture where it may readily be completed, assembled or converted to be used as the frame or receiver of a functional firearm, or that is marketed or sold to the public to become or be used as the frame or receiver of a functional firearm once completed, assembled or converted.

PC 29180 - Assembly of Firearms

Current California law requires individuals obtain and affix a serial number before completing (assembling) a firearm. This code section continues to regulate unserialized firearms.
